PORTFOLIO

ABOUT ME

I am an aspiring fashion designer who loves translating emotions into garments. My design approach focuses on fabric manipulation, wrapping techniques, and expressive silhouettes.I believe fashion is a powerful way to communicate feelings and stories. This portfolio showcases my creative exploration and my journey in developing meaningful and innovative designs.

CONCEPT BOARD

This conceptexplores unspokenemotions thatremain hidden beneath the surface. Silence is seen as a space filled with feelings like vulnerability, restraint, and inner strength. The use of wrapping symbolizes both protection and concealment, where fabric encircles the body to represent emotions that are held within. Soft drapes and layered forms create a sense of movement while also reflecting control and boundaries. The contrast between transparent and structured materials highlights what is revealed and what is hidden. Minimal silhouettes and a muted color palette enhance the mood of calmness and introspection. Overall, the concept expresses silence as a powerful, wearable form where fabric communicates emotions beyond words.

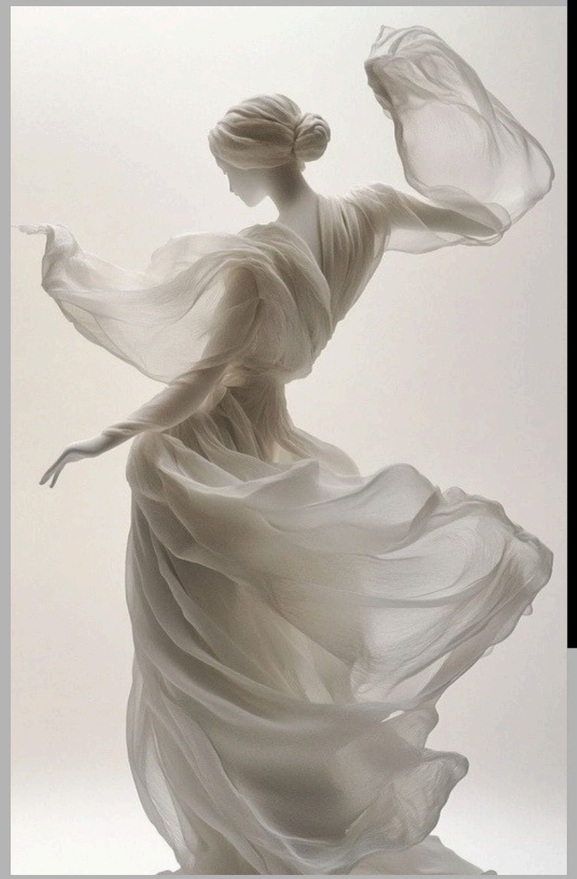
INSPIRATION BOARD



The inspiration is taken from the cocoon stage rather than the butterfly. The focus is on the idea of being wrapped, hidden, and silent during transformation.
